

Toddler Slides

Our Toddler Slides series are designed especially for our younger swimmers. The decks are only 36" (.9m) high and are not intimidating because most children can see the platform surface. Short slide runs prevent excessive speed.

ADAMS--3

Like the banana, this model allows maximum 'Hands-on' parental supervision. The deep siderails, smooth bedway, and gentle slope offer security to even the youngest user.

ADAMS--3

BANANA

BANANA

Deep bedway and gentle 90° right turn, combined with the high siderails of the Cascade ladder system, offer a high degree of safety for youngsters. Mom can stand inside the curve to assist.

BAKER-3

BAKER-3

27" diameter tubes enclose the slider completely. Since the slider is hidden during use, however, parental supervision is encourage.

TODDLER SLIDES
