ANOTHER QUALITY PRODUCT FROM

dizard

Width	16" or 18" or 20"
Weight	45 lbs.
Frame material	Stainless Steel/ polished finish
Frame style	Cross Brace/folding
Rear Wheels	24" tire with plastic mag style wheel
Front Casters	8" x 2 tire with plastic mag style wheel
Rated Capacity	350 lbs.

The Stainless Steel Aquatic Wheelchair is fabricated from materials 100% compatible with swimming pool water and are suitable for daily immersion in swimming pool water. This heavy-duty Aquatic Wheelchair is rated at 350 lbs. using a double cross braced stainless steel frame. Thoughtful features include: frame tubing that is bent in a radius to eliminate sharp corners and wheels (both front and back) are tough plastic 'mag' style wheels with non-pneumatic tires to eliminate maintenance. Upholstery fabric is a mesh material built for heavy-duty use and treated to be both anti-fungal and anti-mildew. Arm rests swing up out of the way for transfers and footrests will fold up or can be removed for versatility. Chair is supplied with upper chest strap and lower nylon seat belts and a handy pocket behind the seat.
