

Player Benches with Back Rests

These extra sturdy team benches are constructed of 10" wide non skid aluminum planks and 2" x 2" galvanized steel legs.

Available either with or without a backrest, and in portable, permanent and surface installed units.

For powder coated player benches, please specify leg and plank color when ordering. Allow up to 4 weeks for shipment.

Powder coating is a completely dry finishing process. Finely ground particles of pigment and resin are electrostatically charged and sprayed onto the products to be coated. The products are electrically grounded so that charged particles adhere to them until melted and fused into a solid coating in a curing oven.
