

Weather-Resistant Outdoor Electric Clocks

These accurate clocks are specifically designed to be durable, dependable and easy-to-read during all types of weather. The electric movements are protected inside a plastic enclosure to protect against dust and water and to ensure problem-free operation.

The steel case is available in a black sand or steel gray finish and the aluminum dial resists warping and cracking.

- Operates in a wide range of climate conditions
- Durable steel case with powder coat finish
- Aluminum dial resists warping and cracking
- Shatter-resistant plexiglass safety crystal
